

PyCharm IDE interface showing a Python project named `PyCharmMiscProject` with files `list.py` and `expenses.csv`.

The `list.py` file contains the following code:

```
26
27 # Pandas category breakdown
28 category_summary = df.groupby('category')['amount'].sum()
29
30 print("\nCategory-wise Breakdown:")
31 print(category_summary)
32
33 # Monthly summary
34 monthly_expense = df.groupby(['month', 'category'])['amount'].sum().unstack().fillna(0)
35
36 print("\nMonthly Expense Summary:")
37 print(monthly_expense)
```

The Run console output shows the following table:

```
Monthly Expense Summary:
category  Food  Shopping  Travel
month
2026-05    750.0    700.0    700.0
```

Process finished with exit code 0

Bottom status bar: 36:36 CRLF UTF-8 4 spaces Python 3.14 (PyCharmMiscProject)

Windows taskbar at the bottom shows the date and time: 11:11 13-05-2026.
